This acclaimed, long-standing series provides detailed information on organizations around the world, published as three individual titles:

- **Encyclopedia of Associations: National Organizations of the U.S.** — The only comprehensive source for detailed information on nonprofit American membership organizations of national scope. Each entry features a range of valuable data, typically including the organization's complete name, address, email and/or web site and phone; the primary official's name and title; founding date; purpose and activities; dues; national and international conferences; and more.
- **Encyclopedia of Associations: Regional, State, and Local Organizations** — This guide to U.S. nonprofit membership organizations with interstate, intrastate, city or local scope includes trade and professional associations, social welfare and public affairs organizations and religious, sports and hobby groups with voluntary members. Entries furnish association name and complete contact information.
- **Encyclopedia of Associations: International Organizations** — This detailed resource covers multinational and national membership organizations from Afghanistan to Zimbabwe, including U.S.-based organizations with a binational or multinational membership. Entries provide complete contact information, including names of directors and executive officers; e-mail and Web site addresses; description of the organization's history, governance, staff, budget, affiliations, goals, activities and much more.

Students and researchers will find hundreds of practical applications for association data through the *Gale Directory Library*.

## REAL-WORLD EXAMPLES MIGHT INCLUDE:

- Cross-search all three titles in seconds to generate a list of animal rights organizations across the globe, including complete contact information, Web sites and more
- Market a new small business product or service by connecting with Chambers of Commerce; cross-search national with regional organizations to easily create a mailing list of more than 3,000 groups across the U.S.
- And much more ...

## ABOUT GALE DIRECTORY LIBRARY

The global leader in reference publishing for more than 50 years, Gale has long been known for publishing authoritative directories on companies, publishers, associations and more. At long last, these directories are available online. The new *Gale Directory Library* takes these detailed references off the shelf and makes them available at the click of a mouse 24/7.

With *Gale Directory Library*, researchers can use state-of-the-art functionality to perform a range of data sorting, filtering and exporting. These innovative features, unlike anything seen previously from our directories, make *Gale Directory Library* the essential tool for research.

- **Find contacts** — Finding a company, person, publication (or other kind of entity) is easy. Basic search lets users quickly look up names, search by keyword, and browse the full text of your directory holdings.
- **Generate lists, analyze trends** — Export search results and use them in programs like Excel or Word, making the creation of mailing lists a snap.
- **Cross-searchable** — Search across our growing number of directory titles. Each directory can be searched individually by its own unique data fields, or search the entire directory collection.
